

Goals of Physics 151, 152: (1) To provide the student with a clear and logical presentation of the basic concepts and principles of physics; (2) To strengthen an understanding of these concepts and principles through a broad range of applications to the real world; (3) To demonstrate these concepts and principles through laboratory exercises; (4) To employ the student's full mathematical background, including calculus, in problem-solving.

Physics 151

Fall Semester, 2004

Prerequisite: Math 111 or equivalent Corequisite: Math 112

Text: Serway and Jewett, Physics for Scientists and Engineers with Modern Physics, Sixth Edition

Instructor: Dr. William Baird, Pierce 207

Course Content: There will be three tests and a final exam. Also at least thirteen HW sets, the best ten of them to be counted as a fourth test grade. The tests can be made-up only with advance notice and circumstances of illness or death. The HW sets lose a letter grade in value for each day of lateness.

Mechanics, Wave Motion, and Thermodynamics

Chapters 1, 2, 3, 4, 5, 6

Test 1 (September 21, 2004, 8-10 am)

Chapters 7, 8, 9, 10, 11, 12

Test 2 (October 19, 2004, 8-10 am)

Chapters 13, 14, 15, 16, 17, 18

Test 3 (November 16, 2004, 8-10 am)

Chapters 19, 20, 21, 22

Final Exam (December 9, 2004, 9 am - 12 pm)
(cumulative)

Weighting: Tests and HW 60%, Labs 20%, Final Exam 20%

Grading: Grades given for this course will be a subset of A, A-, B+, B, B-, C+, C, C-, D+, D, F. See Catalog, page 84.

Attendance: Not required, but encouraged.

The Oxford College Honor Code applies to tests and exam in this course. Homework sets may be collaborated, but must be written up independently. Laboratory analysis and calculations may be shared, but reports must be written independently.
