**Course Description:** ART 205R serves as an advanced studio course of descriptive drawing and painting. The foci of the studio will be the conceptual development of iconography, the continued exploration of the formal elements of art in relation to constructing strong compositions, the investigation of the physical and psychological properties of color and value, the mastering of media and the refinement of artistic styles.

**Course Goals and Performance Objectives:** Upon completion of this course, students will be able to:

- 1 Produce two-dimensional visual images which explore various methods of achieving strong compositions and color relationships. Each image must demonstrate an understanding of the formal elements, (line, shape, value, texture, and color) as they relate to the principles of visual organization, (harmony, balance, rhythm and repetition, movement, dominance, and proportion).
- 2 Successfully manipulate both dry and wet media to create various works of art.
- 3 Pose and resolve artistic problems or challenges for themselves.
- 4 Analyze and critically discuss their work in relation to the development of personal iconography and individual style.

**Student Evaluation and Grading:** There will be six assignments worth 100 points each. All projects will be evaluated with regards to composition, understanding of assigned technique, craftsmanship, value ranges, handling of media, comprehension of color theory and creativity. Students will also receive grades for their performance and participation in formal critiques. Your final grade will be an average from the following categories:
