

Econ 212
Intermediate Macroeconomics
Spring 2005

Instructor: Frank Maddox
318 Seney Hall
Phone: 784-8357
Office Hours: M-Th 1:00-2:00

Course Description: Econ 212 applies the tools of aggregate economic analysis to problems of the performance of the national economy. An IS-LM model is developed that allows graphical and algebraic analysis of fiscal and monetary policies upon the aggregate economy. Particular emphasis is placed on the macroeconomic issues of inflation, unemployment and international economic relations.

Course Objective; The goal of Econ 212 is to provide an understanding of the causes of macroeconomic fluctuations in employment, inflation, and production. The course links the theories and data to enable students to assess the economic environment and its affect on individual industries and businesses.

Method of Instruction: The course is taught with a combination of lecture, discussions, problem sets, and examinations. Class interaction and the analysis of specific economic problems are stressed. Students will visit various Internet Websites during the semester and participate in a Learnlink conference therefore a working knowledge of both Learnlink and a web browser is necessary.

Academic Integrity: There is zero tolerance of any breach of academic integrity in the course. Students are expected to re-read and ask any questions about the Oxford Student Honor Code. The Honor Code will be strictly enforced in this class.

Text Required to be Purchased by the Student: Robert Gordon's Macroeconomics, 9th edition. Addison-Wesley, 2003.

Examinations: There will be two in-terms exams and a final examination. The dates assigned for the exams will not change. However the material covered on each exam may deviate from the course schedule according to progress in lectures.

Grading Policy: Each exam accounts for 25% of the course grade. Homework, quizzes, and papers are worth 25% of the grade. Exams and homework will be graded numerically. Your numerical average will be converted into a letter grade:

A	= 94 up to 100
A-	= 90 up to 94
B+	= 87 up to 90
B	= 84 up to 87
B-	= 80 up to 84
C+	= 77 up to 80

C	= 74 up to 77
C-	= 70 up to 74
D+	= 67 up to 70
D	= 60 up to 67
F	= 0 up to 60

Attendance Policy: Attendance is required and will be recorded each class period. One point will be deducted from the student's final numerical course grade for each absence in excess of four absences.

Make-up examination Policy: Make-ups will be permitted only with written support (approved by the instructor) of serious situations that preclude the student's ability to take the exam during the scheduled time.

Important Dates

January 25 Drop/add period ends
 February 16- Exam I
 March 14-18 - Spring Break
 March 30 - Exam II
 Final Exam - see schedule

Course Outline

Week 1; January 17-21
 Chapter 1 What is Macroeconomics

Week 2; January 24-28
 Chapter 2 The Measurement of Income, Prices and Unemployment

Week 3; January 31- February 4
 Chapter 3 The Keynesian Theory of Income Determination
 Chapter 4. The IS-LM Model

Week 4; February 7-11
 Chapter 4. (cont.)
 Chapter 5. Monetary Policy, Fiscal Policy, and the Government Budget

Week 5; February 14-18
 Chapter 5. (cont.)

Exam I- February 17- Chapters 1-5

Week 6; February 21-25
 Chapter 6 International Trade, Exchange Rates, and Macroeconomic Policy
 Chapter 7 Aggregate Demand, Aggregate Supply, and the Self-Correcting Economy

Week 7; February 28-March 4
Chapter 8 Inflation: Its Causes and Cures

Week 8; March 7-11
Chapter 9. The Goals of Stabilization Policy: Low Inflation and Low Unemployment

Week 8; March 14-18
SPRING BREAK
