Course Description: ART 105 serves as an introductory studio course of descriptive drawing and painting (to draw and paint what is visually observed by the artist). The foci of the studio will be the exploration of the formal elements of art in relation to constructing strong compositions and the study of the aesthetic, physical and psychological properties of color and value.

Course Goals and Performance Objectives: Upon completion of this course, students will be able to:

- 1 Demonstrate an understanding of the formal elements, (line, shape, value, texture, and color) as they relate to the principles of visual organization, (harmony, balance, rhythm and repetition, movement, dominance, and proportion).
- 2 Successfully work in both dry and wet media to create various color schemes.
- 3 Produce two-dimensional visual images which explore various methods of achieving strong compositions and color relationships.
- 4 Analyze and critically discuss their work.

Student Evaluation and Grading: There will be six assignments worth 100 points each. Students will also submit a sketchbook (50 tight sketches total by end of semester) worth 100 points. All projects and work in sketch books will be evaluated with regards to composition, technique, value ranges or color relationships, and creativity. Students will also receive grades for their performance and participation in formal critiques.

Your midterm and final grade will be an average from the following categories:
