

ARC 520G / INTERMEDIATE DESIGN STUDIO IV: SPECULATION
Spring 2019
Judith Birdsong
GOL 2.210
Office hours: Monday, 11-12
jcbirdsong@utexas.edu

Prerequisites

ARC 320D, ARC/ARI 221K, and ARC 415K with a grade of at least C in each.

Curriculum Flag

This course carries the Independent Inquiry flag. Independent Inquiry courses are designed to engage students in the process of inquiry over the course of a semester, providing a student with the opportunity for independent investigation of a question, problem, or project related to the student's major. At least one-third of the grade will be based on independent investigation and presentation of one's own work.

Plate XIII, "The Well," or "Carceri with Several Straight, Broad Central Staircases" (1761)

DARK MATTER

During his lifetime, Giovanni Battista Piranesi (1720-1778) was best known for his "vedute" (views) of Rome that he sold to tourists as souvenir images from his workshop at the foot of the Spanish Stairs. It is, however, his "Carceri d'Invenzione" ("Imaginary Prison") series, a fictive evocation of a dark, improbable, and labyrinthine world of psychological and physical torment, that has inspired the work of poets, filmmakers, novelists, artists, and critics in the many years since. The caraceri are sites of both ruin and construction -- pulleys, hoists, and half-completed timber assemblages juxtapose with collapsed structure and the architectural detritus of antiquity – inhabited by shadowy figures and men in contorted agony. They are *speculative* propositions, the products, some have suggested of fever-induced delirium or hallucinations brought on by opium use; regardless, they are evidence of a wildly inventive imagination. Piranesi's determination to convey atmospheric affect superseded other such mundane considerations as clients, function, and, indeed, structure -- despite the dominant presence of characteristically massive masonry arches and piers -- and was, at the time, wholly revolutionary

We will be drawing, quite literally, on Piranesi's speculation. Each student will begin by *manually* reconstructing (or "restituting") the plan(s) of one of Piranesi's 16 Carceri plates using a process of reverse perspective construction. You will then be asked to extrapolate, or "complete," the physical situation of your image by *discerning* both the logic revealed in your analysis and *constructing* a narrative suggested by the plate's title and imagery. These "reimagined" districts will then serve as our individual and collective sites for the following

projects, a tower, and observatory. Rather than three distinct projects, they should be thought of as one work that will continually evolve over the course of the semester.

Field Trip (required): We will be touring the McDonald Observatory in Ft Davis and Marfa during the month of February

INTERMEDIATE DESIGN STUDIO SEQUENCE

Students pursuing the Bachelor of Architecture must complete four Intermediate Design Studios during their second and third years. Building on the Foundation Design Studios taken during the first year, the goal of the Intermediate Studios is to prepare students for Advanced Design Studios in their fourth and fifth years.

Each Intermediate Studio will be structured around one of four broad themes of inquiry (Operational, Environmental, Integration, and Speculation) and will offer a critical framework and vocabularies for design and development into key issues emphasized in the theme. Intermediate Studios will also serve as a platform to prepare students for the range of offerings of the Advanced Studios (e.g. Comprehensive, Urban Design, Landscape Architecture, etc.). Intermediate Studios will follow a similar structure, but each instructor will individually determine the scope and design problem for each studio.

THEME: SPECULATION

This studio emphasizes architecture as an intellectual or theoretical exploration: emphasis on theory, *raison-d'être*, program, architecture and other disciplines (art, film, psychology, etc.).

STUDIO STRUCTURE

Assignment 1: Research and Analysis (three weeks);

Assignment 2 (four weeks)

Assignment 3 (eight weeks)

65% of final grade

Students will work individually

LEARNING OUTCOMES

Students will be exposed to a series of learning goals several times and from different angles over the four Intermediate Studio sequence. The goal is that similar issues are repeated from studio to studio but from different angles, allowing students to find, within the diversity of the topics, a "common thread" as they go through the sequence of the four studios. The level of expectation will grow as students go from being introduced to an issue, to becoming competent at it. Some issues would be only mentioned in passing in one studio but will be studied in more depth in another.

- *Design Composition Skills:* Developed through three-dimensional architectural form and space, both exterior and interior; building envelope
- *Design Integration Skills:* Demonstrated through creative engagement with issues of materiality, structures, construction, and environmental system
- *Site Analysis and Design:* Developed through the creative engagement with relevant contextual; environmental and programmatic factors underlying the project
- *Critical Thinking:* Quality of conceptual and critical thought; learning from precedents; research skills
- *Graphic Skills:* Quality of presentation; clarity of communication; appropriateness of media strategy and level of skill displayed
- *Basic grasp of accessibility and egress*
- *Collaborative and Leadership Skills:* Demonstrated through the active engagement in all activities of the studio

STUDIO CULTURE

The School of Architecture believes in the value of the design studio model. Studio learning encourages dialogue, collaboration, risk-taking, innovation, and learning-by-doing. The studio offers an environment where students can come together to ask questions and make proposals, which are developed and discussed among

classmates, faculty, visiting professionals, and the public-at-large. Studio learning offers intensive one-on-one instruction from faculty members, and provides the opportunity for each student to develop his/her critical thinking skills and spatial and material sensibilities. The design studio offers a synthetic form of education, where project-based learning becomes the foundation for developing an understanding of and commitment to the school's core values — broadmindedness, interconnectivity, professionalism, exploration and activism — all in service of architecture's fundamental mission: to improve the quality of the built and natural environments.

<https://soa.utexas.edu/programs/architecture/architecture-studio-culture>

DESIGN CONVERSATIONS: JESSEN LECTURES

The School of Architecture offers a wide range of opportunities for students to extend the design conversations taken place in studios (lecture series, Goldsmith talks, exhibitions, etc). Students are encouraged to participate and be engaged. Specifically, all B.Arch and BSAS students in studio are expected to attend all the Jessen Lectures (three per semester by lead practitioners from around the world). The lectures and the group discussions in studio that follow are important for the holistic education of intellectually engaged students and participation will have an impact on students' grades (see below).

EVALUATION CRITERIA

While each project contains certain quantifiable elements for evaluation, a significant portion of each grade is derived from broader and more subjective criteria.

Student work will be evaluated according to its rigor and evolution over the semester. Grades are subject to deductions for late arrivals, absences, and late or incomplete work at the discretion of the instructor.

Grading for an assignment is broken into four components, each of which is given roughly equal weight:

Pursuit: the consistent and rigorous development and testing of ideas.

- The ability to formulate a query or thesis and pursue a self-determined concomitant method of inquiry
- The ability to identify and implement various processual mechanisms (software, sketch drawing and models, etc.) in the development of the design
- Initiative as demonstrated in work ethic – Does the student do what is asked; go beyond what is asked; direct their own efforts; eager to produce the next iteration of the design?

Grasp: the ideas and understanding of the project at hand and integration of knowledge introduced in companion courses.

- A strong and clearly stated design objective
- Spatial acuity as demonstrated in plan – including reasonable disposition of programmatic elements – and sectional development
- Synthetic and critical thinking; the ability to holistically organize a project as demonstrated through creative engagement with issues of materiality, structures and construction, structural and environmental system integration, building materials and assembly, sustainable practices, etc. in support of the design objective
- Structural competence and material sensitivity as demonstrated in wall thickness, floor plates, and assembly

Resolution: of the design objective; the demonstration of competence, completeness, and finesse in the final design presentation.

- Quality of presentation; clarity of communication; appropriateness of media strategy and level of skill displayed through the work presented at all stages of the design process; technical documentation

Engagement: the active participation in studio activities, leadership, collaboration, group discussions and reviews.

A student must earn a letter grade of C or better in order for the course to count towards a degree in the School of Architecture and to progress in to the next studio. A letter grade of C- will not satisfy degree requirements.

GRADE DESCRIPTIONS

A/A-	Excellent Project <i>surpasses expectations</i> in terms of inventiveness, appropriateness, visual language, conceptual rigor, craft, and personal development. Student pursues concepts and techniques above and beyond what is discussed in class. Project is complete on all levels.
B+/B/B-	Above Average Project is thorough, well presented, diligently pursued, and successfully completed. Student pursues ideas and suggestions presented in class and puts in effort to resolve required projects. Project is <i>complete on all levels and demonstrates potential for excellence</i> .
C+/C	Average Project meets the minimum requirements. Suggestions made in class and not pursued with dedication and rigor. <i>Project is incomplete</i> in one or more areas.
C-/D+/D/D- Poor	Project is incomplete. Basic grasp of skill is lacking, visual clarity or logic of presentation are not level-appropriate. Student does not demonstrate the required competence and knowledge base.
F	Fail Project is unresolved. Minimum objectives are not met. Performance is not acceptable. Note that this grade will be assigned when students have excessive unexcused absences.
X	Excused Incomplete Can be given only for legitimate reasons of illness or family emergency. Simply not completing work on time is not an adequate cause for assigning this evaluation. It may only be used after consultation with the Associate Deans' offices and with an agreement as to a new completion date. Work must be completed before the second week of the next semester in which the student is enrolling, according to the School of Architecture policy.

ATTENDANCE

Punctual and regular attendance is mandatory. Participation is expected. With three (3) unexcused absences, the student's final grade for the course will be lowered by a full letter grade. The final grade will be lowered by a full letter grade for each unexcused absence thereafter. Aside from religious observances, absences are only excused with written documentation of a medical issue or family emergency. The student is responsible for completing work missed due to excused absences and initiating communication with the instructor to determine due dates.

If a student is late (5 minutes after the start of class) three (3) times, it will be counted as one (1) unexcused absence. Students should notify the instructor prior to class if lateness or absence is known in advance. Students must notify instructors directly regarding lateness or absences; Asking a classmate to inform the instructor is not acceptable.

RELIGIOUS OBSERVANCES

A student shall be excused from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for the purpose. A student whose absence is excused under this subsection may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence. University policy requires students to notify each of their instructors as far in advance of the absence as possible so that arrangements can be made.

By UT Austin policy, you must notify the instructor of the pending absence at least fourteen days prior to the date of a religious holy day. If you must miss a class, an examination, an assignment, or a project in order to observe a religious holy day, you will be given an opportunity to complete the missed work within a reasonable time after the absence.

ACADEMIC INTEGRITY

Students who violate University policy on academic integrity are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. Since such dishonesty harms the individual, all students, and the integrity of the University, policies on academic integrity will be strictly enforced. Refer to the Student Conduct and Academic Integrity website for official University policies and procedures on academic integrity: <http://deanofstudents.utexas.edu/conduct/academicintegrity.php>. University Code of Conduct: <http://catalog.utexas.edu/general-information/the-university/#universitycodeofconduct>

MENTAL HEALTH AND SUPPORT SERVICES

Taking care of your general well-being is an important step in being a successful student. If stress, test anxiety, racing thoughts, feeling unmotivated, or anything else is getting in your way, there are options available for help:

- In-house CARE counselor (see below)
- For immediate support
 - Visit/call the Counseling and Mental Health Center (CMHC):
M-F 8am-5pm | SSB, 5th floor | 512-471-3515 | cmhc.utexas.edu
 - CMHC Crisis Line:
24/7 | 512-471-2255 | cmhc.utexas.edu/24hourcounseling.html
- Free services at CMHC:
 - Brief assessments and referral services: cmhc.utexas.edu/gettingstarted.html
 - Mental health & wellness articles: cmhc.utexas.edu/commonconcerns.html
 - MindBody Lab: cmhc.utexas.edu/mindbodylab.html
 - Classes, workshops, and groups: cmhc.utexas.edu/groups.html

CARE PROGRAM

Counselors in Academic Residence (CARE) Program places licensed mental health professionals within the colleges or schools they serve in order to provide better access to mental health support for students who are struggling emotionally and/or academically.

Abby Simpson (LCSW) is the assigned CARE counselor for the School of Architecture. Faculty and staff may refer students to the CARE counselor or students may directly reach out to her. Please leave a message if she is unavailable by phone.

Abby Simpson, LCSW | BTL 114B | 512-471-3115 (M-F 8am-5pm)
https://cmhc.utexas.edu/CARE_simpson.html

STUDENTS WITH DISABILITIES

Students with disabilities who require special accommodations must obtain a letter that documents the disability from the Services for Students with Disabilities area of the Office of the Dean of Students (471-6259 voice or 471-4641 TTY for users who are deaf or hard of hearing). This letter should be presented to the instructor in each course at the beginning of the semester and accommodations needed should be discussed at that time.

<http://diversity.utexas.edu/disability/>

SECURITY, SAFETY, AND SUSTAINABILITY

The studio is an exceptional learning environment. Since it is a place for all, it necessitates the careful attention to the needs of everyone. All spraying of fixative, spray paint, or any other substance should be done in the shop. Security is a necessary component for a studio that is accessible to you and your colleagues 24 hours a day, 7 days a week. Do not leave your studio without your studio key and do not leave your studio unlocked. Hold yourself and your studiomates accountable for the security of your shared space.

The studio is an opportunity to apply sustainability principles, being mindful to recycle and reuse to reduce material consumption at UTSOA. Recyclable materials should be placed in blue bins or any other containers with white bags. The Material Exchange, a give-and-take system for students to donate materials and take what they need for studio and fabrication coursework, is available throughout the semester to all UT students in the UTSOA Technology Lab. All unwanted, reusable materials should be brought to the Material Exchange station in the Technology Lab at the end of the semester.

BCAL

Concerns regarding the safety or behavior of fellow students, Teaching Assistants (TA), or Professors can be reported to the Behavior Concerns Advice Line (BCAL): 512-232-5050. Calls can be made anonymously. If something doesn't feel right, it probably isn't. Trust your instincts and share your concerns.

EMERGENCY EVACUATION

In the case of emergency evacuation:

- Occupants of buildings on The University of Texas at Austin campus are required to evacuate buildings when a fire alarm is activated. Alarm activation or announcement requires exiting and assembling outside.
- Students should familiarize themselves with all exit doors of each classroom and building they may occupy. Remember that the nearest exit door may not be the one used when entering the building.
- Students requiring assistance in evacuation shall inform their instructor in writing during the first week of class. In the event of an evacuation, follow the instruction of faculty or class instructors.
- Reentry into a building is prohibited unless given instructions by the following: Austin Fire Department, The University of Texas at Austin Police Department, or Fire Prevention Services offices.

Information regarding emergency evacuation routes and emergency procedures can be found at:

www.utexas.edu/emergency.
