Math 100C Syllabus Fall, 1992

Instructor: Mrs. Susan Riner Office: 116C Seney Hall

Phone: 784-8316

Text: Algebra and Trigonometry by Keedy/Bittinger, 5th edition

Purpose: This course is designed for students who need to strengthen their mathematical backgrounds before entering regular college mathematics courses. Math 100C will provide each student with an opportunity to increase his or her proficiency in and understanding of basic concepts of Algebra, sequences and series, sets, combinatorics, and probability. You may not drop Math 100C after August 28.

Assessment Procedures: Each student will attend three hours of lecture and one two-hour session (lab) per week. During the lab time, quizzes and tests will be administered. At the end of the semester, each student will take a cumulative final exam. Grades will be assigned according to the following point distribution.

Quizzes 4 Tests Final Exam	200 points 400 points 200 points	B:	720-800 points 640-719 560-639
Total	800 points	F:	below 560

A grade of C or better is needed to continue into another math course.

Attendance: Students are expected to attend all classes and labs and are responsible for all material covered in class as well as any changes made in the attached schedule regarding homework, quizzes, and test dates. Roll will be taken. Attendance and consistent preparation for class will determine the success or failure the student realizes in this course.

Honor Code: The Honor Code of Oxford College applies to all work submitted for credit. Work is to be yours and yours alone.

Test Schedule: Tests and quizzes will be given on Thursday afternoons at 2:00 in Seney Hall. You are expected to take them only at the scheduled times. Legitimate emergencies will be handled on an individual basis.
