ALD 321: Play in Early Development Spring 2019

Tuesdays 11:00 am -12:30 pm in BUR 212

Thursdays 09355 (11:00 am -12:30 pm, SZB 344) Da Hei Ku

09360 (02:00 pm -03:30 pm, SZB 344) Da Hei Ku 09365 (11:00 am- 12:30 pm, SZB 411) David Barry 09370 (11:00 am -12:30 pm, SZB 424) Natacha Jones

Welcome to ALD 321: Play in Early Development

This course is designed to examine play from a variety of political, anthropological, sociological, educational and social justice perspectives. In an era where play is increasingly disappearing in schools and neighborhoods, it is essential that anyone who cares about or for children have a deep understanding of the connections between play, learning, healthy living and capability expansion. In this course, we critically evaluate research on play and try to better understand the role of play in our lives and in the lives of children. We investigate how society and culture shape the ways we think about play and how much access to play we have in our daily lives. We talk about play experiences for children on the Autism spectrum as well as for children who have experienced trauma. We address whether video games count as play and how to support principles of play in an increasingly digital world.

There are two goals for this course. The first goal is to help each student value play for children and for themselves and to have a range of theory and evidence to advocate for play. The second goal is for students to expand their capabilities to support children's play in ways that increase their agency rather than try simply to control them.

This course carries the Independent Inquiry flag. Independent Inquiry courses are designed to engage you in the process of inquiry over the course of a semester, providing you with the opportunity for independent investigation of a question, problem, or project related to your major. You should therefore expect a substantial portion of your grade to come from the independent investigation and presentation of your own work.

Sunmin Lee, Instructor

Required Text

Course Reading Packet - ALD 321 can be purchased on first day of classes (Tuesday) or at Asel Art Supply 510 W. Martin Luther King Jr. Blvd.

Technology Etiquette

I expect that you will use your laptop/tablet/phone in appropriate ways and at appropriate times. There are so many ways you *could* distract yourself in class – please don't. Stay with us. Posting on social media any pictures or quotes from students or teachers is prohibited. Class should be a safe place for sharing ideas without worrying about people posting it. If you are on social media or email instead of engaging in class, you will lose participation points.

Course Assignments

I. Participation (60 points)

Participation includes coming prepared to class, reading the assignments, appropriately participating in class discussions and periodic attendance assignments. Regular attendance at all class meetings is a requirement of this course: you cannot learn if you are not here. For each class session you miss, 3-5 points will be deducted from your final grade for the course. In addition to attendance, your class engagement will be evaluated as well based on your participation during Tuesday's lectures and small sections. Each of you will be granted two Emergency Release (ER) days. Your ER excuses you from two class sessions with no penalty. To use your ER you must notify me and your TA by email BEFORE class. (If you fail to contact me before class, you ER will not count, and you will lose points.) Save your two ER's for medical issues, family demands, car trouble, etc. All other absences are unexcused and will affect your grade. *Students will not be penalized for absences due to the observance of religious holidays that fall on our scheduled class day. You must give me an advance notice of these absences, so I can make the necessary accommodations. All other absences are unexcused and will affect your grade.

For both Tuesday's lectures and the small sections, sign-in sheets would be made available for the first 10 minutes of class for you to mark attendance. If you are late and unable to sign, then please check in with your TA **after the class** for attendance.

II. Daily Reflection (65 points total)

Before each Tuesday class you will post a reflection of the reading by 11 am on Canvas under the Discussion tab (except for Week 1 and 15). To post, students will reply to the discussion board created each week. Once your response is posted you will be able to see your other classmates' responses as well. You are free to discuss and respond to one another, but that is not a requirement. However, glancing over each other's work may enhance the conversation within class. Please see below for a few reflection guidelines:

- 1. Your post should be approximately 250 words (excluding your 2-3 questions- see below).
- 2. Your writing should synthesize all the readings, not summarize.
- 3. Your reflection may include a few, some, or all of the following:
 - What was most compelling and striking to you in the readings? What makes you think more deeply in the reading in helpful and provocative ways?
 - What are the major arguments/thesis of each reading (what supporting evidence, facts, experiences, or data do the authors provide to support their arguments)? And, what are your reactions to the arguments? Are you convinced, why or why not?
 - What are specific strengths and weaknesses of the promulgated ideas? How did the authors support or not support their argument? Were there any perspectives missing in the reading?
 - How do the authors' perspectives compare and contrast across readings?
 - How does the reading content relate to your own life experience and your research in education? Critically reflect on this question.

Finally, ALWAYS create 2-3 robust questions from the readings that may be used for discussion. Have a mix of larger questions that relate to the theme of the course, but also specific questions that relate directly to what you read for that week. Include page numbers and direct quotes where appropriate. These questions will guide discussions during small group meetings on Thursdays.

III. Opening Activity (10 points)

For each small section meeting on Thursday, students will prepare one 10-minute opening activity that relates to the topic we will be discussing. The activity can be and is not limited to a game, video clip, discussion questions, etc. Be creative! Students will sign-up for a session on the first day of class. On your opening activity week, you need to send your TA a paragraph about what you are going to do for opening activity and how it is connected to that week's readings by Tuesday.

III. Play Series

1. Generation Play (Data due 02/07/19 and Reflection due 02/14/19) (25 points)

For this project, you will be asked to complete an interview with one adult about his/her play memories (using guiding questions that we come up with in class) and one interview with a child (ages 3-12) about his/her experiences and ideas about play. Students will bring data to class and the following week turn in a 1-2 page (typed, double spaced) reflection that draws upon readings and interview data.

2. Observation of Play (Paper due 03/07/19) (25 points)

Students will observe children (0-12 year-old) playing in a public space such as a park, museum or school for one hour and then analyze their observations using at least one theorist and/or reading from class in a 3-4 page (typed, double spaced) paper. You are also encouraged to use your experiences from the interviews and connect it to your observations in the paper. Possible areas of focus include the ways children engage in play, welcome or don't welcome others into their play, how physical materials and nature play a role in the play, how adults interact with children during play, ways that certain things encourage and discourage play and how regulations impact play.

*Be sure to be respectful of children. You do NOT have permission to film or take photographs – only observations from a distance.

3. Environment Design for Play (Due 04/04/19) (25 points) Due: Environment redesign map

Students will take a picture of an inside space (classroom, family room, hospital, library, outdoor space, supermarket, museum, hallway) and change the design to allow for play – this includes attention to time and space as well as what people do, what is around for them and how it is regulated. Students can map, draw arrows, stick pictures, create models or narratively explain the readings/concepts/theorists/researchers that inspire each change.

4. Equity and Development (Due 04/25/19) (25 points)

Write a paper or create some type of a visual demonstration (e.g., poster, ppt presentation, or video of yourself) to explain how play and development is impacted by equity issues. The equity issues include, but are not limited to, race, class, ability, gender, sexuality, language or immigration status. Select one of these equity issues and provide three related examples to articulate how play is affected by that particular equity issue. You can draw examples from legitimate news sources, articles, reports, or books (NOT from the reading packet). You may use the readings to support the examples you have found from the other sources. One example can be your own experience You can also write about your own experience(s) as a child, aunt/uncle, or parent and reflect on how (in)equity issues played a part in your or the child's/children's play and development Please cite your sources according to APA style.

IV. Play Advocacy Project (Final) (Presentation due 05/09/19, Paper due 05/13/19) (70 points)

Due: Play advocacy artifact Cover sheet (found on Canvas)

Reflection paper (2-3 pages, double-spaced)

Proof of Project's execution (i.e. screenshot, forwarded email, etc)

This project is meant to demonstrate knowledge of the importance of play and a committed effort to advocating on behalf of young children. Using discussions and readings from the class as a guide, students will create an advocacy piece that is meant to publicly explain the importance of play. This is meant to be a flexible but high quality creative project. For example, students could write a general op-ed for the Texas Tribune on the importance of

play. Students could choose to advocate for play in certain specific environments such a schools, doctors' offices or other locations. Students could choose a particular group of people/organization to focus on with their project. Other possible project options include policy brief, podcast, graphics poster, graphic novel, social media campaign. Students will be graded according to the play advocacy project guidelines/ cover sheet found on canvas.

Attendance & Weekly Engaged Participation	45 points (15 weeks x 3 pts each week) 15 points
Reflections	60 points (13 weeks)
Opening Activity	10 points
Play Series	100 points (4 projects x 25 pts each)
Play Advocacy Project	70 points
Total	300 Points

Class Policies and Grading Criteria

- All papers, assignments, and projects must be completed and submitted through canvas by the start of the class session on which they are due. The grade on any late work will be decreased by 5 points for each day beyond the due date unless arrangements have been made with your TA in advance.
- Any students with travelling schedules need to submit their schedules to their respective TAs in the first week of class.
- If you leave from class early, then it would be counted as an absence and attendance points would be deducted.
- Meeting the basic requirements of an assignment neither constitutes nor guarantees an A. Please refer to the University of Texas at Austin's grading system that defines the following letter grades: A (excellent); B (above average); C (average); D (pass); F (failure). In this class A= 93-100; A- =90-92; B+=87-89; B=83-86; B- =80-82; C+=77-79; C=73-76; C- =70-72: D=60-69; F= 59 or below
- Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. You should refer to the Student Judicial Services web site at http://www.utexas.edu/depts/dos/sjs/ for more information about scholastic dishonesty.
- Students with specific learning needs should meet with me within the first week of classes so that all necessary accommodations can be made. Students with disabilities may request appropriate academic accommodations from the Division of Diversity and Community Engagement, Services for Students with Disabilities, 471-6259.

Course Content and Organization

Week 1: Introduction to the Course - What is Play?

01-22-19 - Large Class

- Defining Play
- Reasons why children play
- Overview of the course

READING	Ambiguity of Play (Sutton Smith)
	** On Canvas

1-24-19 - Small Sections

- Introduction to the Course Community
- Housekeeping Remind: Texas email and Canvas, Weekly activity sign-ups
- Play Genealogy Maps
- Discuss Reading

Week 2: How do we listen carefully to young children?

1-29-19 - Large Class

- Principles for taking children seriously
- Importance of listening and observation when working with children
- Technology and listening to children

1-31-19 - Small Sections

- Discuss Readings
- Examples of Adult/Child Discussions

READINGS	"We're Many Members, but One Body": Fostering a Healthy Self- Identity and Agency in African American Boys (Wright, Counsell & Tate)	
	On Listening to What the Children Say (Paley)	

Week 3: What does play have to do with development? Part One

2-05-19 - Large Class

- Domains of development
- Impact of Piaget and Montessori
- Theory of Minds

2-07-19 - Small Sections

- Opening Activity
- Discuss Readings
- Generation Play Project Data Sharing

DUE THIS WEEK	Data from Interviews (Bring to class)
READINGS	Theories of Childhood – Piaget (Harhart)
	Playful Learning and Montessori Education (Lillard)
	Scientist in the crib (Gopnik, Meltzoff & Kuhl)

Week 4: What does play have to do with development? Part Two

2-12-19 - Large Class

- Expanding domains
- Impact of Vygotsky and Erickson

2-14-19 - Small Sections

- Opening Activity
- Theorist Activity Ages & Stages/Context & Environment

DUE THIS WEEK	Reflection paper
READINGS	Vygotskian and Post-Vygotskian Views on Children's Play
	(Bodrova & Leong)
	Play as the Precursor to Literacy Development (Genishi & Dyson)

Week 5: What does play have to do with development? Part Three

02-19-19 - Large Class

- Culture(s) and Development
- Impact of cultures, nationalities, and experience on play

Using Postcolonial Theory to Critically Reframe the Child Development Narrative (Gupta)
Children's Play as a Cultural Activity (Gaskins)

02-21-19 - Small Sections

- Opening Activity
- Discuss Readings
- Interpretation Activity

Skim	Preschool in Three Cultures Revisited (Tobin)	
------	---	--

Week 6: How does agency and control impact play?

2-26-19 - Large Class

- How agency works
- International development and children's development
- Unequal access to play

2-28-19 - Small Sections

- Opening Activity
- Discuss Readings
- Open-up activity with roadblocks
- Tech Challenge

READINGS	Children's Need to Know: Curiosity in Schools (Engel)
	Making a Stink About the "Ideal" Classroom (Souto-Manning)

Week 7: How does policy and equity impact children's play and development?

3-05-19- Large Class

- Disappearance of play
- · Advocacy for play and early childhood

3-07-19 - Small Sections

- Opening Activity
- Discuss Readings
- DAP changes over time where did play go?
- Equity issues and Play

DUE THIS WEEK	Observation of play paper
READINGS	Is Kindergarten the New First Grade? ** On Canvas
	NAEYC Policy Statements ** On Canvas
	Inserting Child-Initiated Play into an American Urban School District
	after a Decade of Scripted Curricula Complexities and Progress
	(Nicholson, Bauer & Woolley)

Week 8: How can technology limit or extend play?

3-12-19 - Large Class

• Play vs. Entertainment

• Tech for young children

READINGS	"I'm Just Playing Ipad" (Moore & Adair)
	Young people, online gaming culture, and education (Beavis)
SKIM	http://www.naeyc.org/files/naeyc/file/positions/PS technology WEB2.pdf (Links to an external site.)

3-14-19 - Small Sections

- Opening Activity
- Discuss Readings
- Play Tech Challenge

READING	https://masalachaimusings.com/2017/07/28/phones-r-us-parental-
	<u>controls-in-a-digital-world/</u>

3-19 & 3-21 - NO CLASS (Spring Break)

****** Spring Break - 3.18.19 to 3.23.19 *******

Week 9: What is different about playing outdoors?

3-26-19 - Large Class

- Explorer of the World
- Loose Parts Theory
- Privilege

3-28-19 - Small Sections

- Opening Activity
- Discuss Readings
- Outside Time vs. Playing Outside

READINGS	The Genius of Childhood: How nature nurtures creativity (Louv)
	Unruly Raccoons and Troubled Educators: Nature/Culture Divides in a Childcare Centre (Pacini-Ketchabaw & Nxumalo)
SKIM	Quality Outdoor Spaces for Young Children (Spencer & Wright)

Week 10: Does gender affect how we play?

4-02-19 - Large Class

- Internalized Gender Roles
- Sexism at Play

• Queer Theory and Play

4-04-19 - Small Sections

- Opening Activity
- Discuss Readings
- Lego Challenge

DUE THIS WEEK	Environment Design for Play
READINGS	How to play like a girl (LaFrance)
	Using Queer theory to rethink gender equity in early childhood education (Blaise & Taylor)

Week 11: What kinds of racial conversations happen during play?

4-09-19 - Large Class

- Kids act out real life
- Examples of racial conversations that happen during play
- Normalizing diversity

4-11-19 - Small Sections

- Opening Activity
- Discuss Readings
- Inclusive communities

READINGS	The impact of race and culture on play in early childhood (Adair & Doucet)
	How children learn about racism and enact anti-racism (Derman-Sparks)
	Fostering children's caring and activism (Derman-Sparks)

Week 12: How does play make sense for children with special needs/abilities?

4-16-19 - Large Class

- Play and Autism
- Play for children with different abilities

4-18-19 – Small Sections

- Opening Activity
- Discuss Readings

READING	Emancipating play: Dis/abled children, development and
	deconstruction (Goodley & Runswick-Cole)

	Preferred Play Activities of Children with Autism Spectrum Disorder in Naturalistic Settings (Doody & Mertz)
SKIM	Therapeutic Advantages of play (Goncu & Gaskins)

Week 13: Identity, Parents, and Community

4-23-19 - Large Class

- Parent panel
- Identity development in young children
- Intersectionalities and identity(ies)

4-25-19 - Small Sections

- Opening Activity
- Discuss Readings

DUE THIS WEEK	Equity and play
READINGS	Preschoolers' funds of knowledge displayed through sociodramatic play episodes in a bilingual classroom (Riojas Cortes)
	Learning to be a child (Brooker)

Week 14: How can play and positive schooling help children going through trauma?

4-30-19 - Large Class

• Play and Trauma

Learning to laugh (Wright)
Ordinary Magic: Lessons from Research on Resilience in Human Development (Masten)

5-02-19 - Small Sections

- Opening Activity
- Discuss Readings

Week 15: Considering children in our work

5-07-19 - Large Class

- Discipline and Young Children
- Future directions

5-09-19 - Small Sections

• Advocacy Project Presentations
