Math 100C will provide each student with an opportunity to increase his or her proficiency in and understanding of the basic concepts of Algebra, sequences and series, sets, combinatorics, and probability. You may not drop Math 100C after August 27.

Assessment <u>Procedures</u>: Each student will attend three hours of lecture and one two-hour session (lab) per week. During the lab time, quizzes and tests will be administered. At the end of the semester, each student will take a cumulative final exam. Grades will be assigned according to the following point distribution.
